**DARTH VADER™ COLLECTOR'S CASE**

A handsome three dimensional sculpture of STAR WARS classic villain. Holds 31 Action Figures.

**ACTION FIGURES COLLECTOR'S CASE**

**Special Collector's Case For Action Figures!**

A handy portable vinyl collector's case which neatly holds 24 STAR WARS Action Figures in two plastic trays for exciting figure display.

**NEW!**

## HOTH ICE PLANET™

### 1. AT-AT™

Imagine you're DARTH VADER with your giant 17½" tall, 22" long AT-AT. Legs can be posed and a lever moves head in any direction and also makes the two laser cannons light up and pulsate. Two Action Figures fit in the AT-AT's head. Two laser guns turn with a clicking sound. Remove side door and the AT-AT can hold 10 Action Figures. Two "D" batteries not included. Assembly required. Available Summer 1981.

### 2. SNOWSPEDER™

Authentic Rebel vehicle used to defend the secret Rebel Ice-Planet Base. Cockpit opens to hold two Action Figures back to back. Press the button and landing gear comes down. Laser cannons light up, and emit a "battle sound". Harpoon is removable and comes with a two foot string to capture the AT-AT. Two "C" batteries not included.

### 3. MINI-RIGS™ Available Spring 1981.

A. **MTV-7™** an Imperial MULTI-TERRAIN VEHICLE used to search for Rebels. It has a laser cannon and spring-loaded legs to maneuver rough terrain.

Action Figure(s) sold separately.

B. **PDT-8™** a PERSONNEL DEPLOYMENT TRANSPORT featuring two opening ramps, laser machine guns and movable jet thrusters.

C. **MCL-3™** a Rebel MOBILE LASER CANNON fights the invading Empire forces. Carries one Action Figure, has an opening domed cockpit and two laser cannons.

### 4. IMPERIAL ATTACK BASE™

An action packed play environment that recreates the Empire's successful raid against the Rebels. Press the three levers on the ice trenches and cause the ice bridge to collapse, the command post to "blow up", and the land mine to pop up and make Action Figures fall. The laser machine gun makes a clicking sound when manually turned. Assembly required.

### 5. TAUNTAUN™

TAUNTAUN stands on movable hind legs. Front paws can be positioned. A trap door allows an Action Figure to "sit" on his back and saddle and reins are removable.

### 6. TURRET & PROBOT™ PLAYSET

Replica of the Rebel Base on HOTH. Move the action lever to turn HAN SOLO to face and destroy the searching PROBOT, collapsing it onto the "ice". The laser turret turns and clicks and has a top hatch and side door for Action Figures. Assembly required.

## DAGOBAH SWAMP PLANET™

### 1. X-WING FIGHTER™

Dramatic reproduction of STAR WARS X-WING rebel spacecraft used to fly LUKE to YODA's planet of DAGOBAH. Wings open to "X" position by pushing down on simulated R2-D2 behind cockpit. Second button returns wings to original flight position. Cockpit flips open to seat most STAR WARS Action Figures. Front landing skid locks up during flight, and for real excitement, third rear deck button operates laser sound and flashing laser cannon in spacecraft nose. Two "AA" batteries and Action Figure not included.

### 2. YODA™ PUPPET

Your friends can pretend to be JEDI KNIGHTS while you play the JEDI MASTER with the YODA hand puppet. 8½" tall, YODA's head and hands can be manipulated so you can teach the ways of the JEDI. This lifelike hand puppet also stands by itself. Available Spring 1981.

### 3. DAGOBAH™ ACTION PLAYSET

Relive the mysterious events of YODA's Swamp Planet. There's YODA's tiny home where LUKE learns about the JEDI MASTER. Two action levers levitate LUKE plus two storage containers and even R2-D2 as you pretend YODA teaches LUKE how to use "THE FORCE." There's also a play "Bog" where R2-D2 and other Action Figures might sink. The final test comes

by the gnarled tree cave—move 2 other action levers and relive LUKE's LIGHT-SABER battle with the dark side of "THE FORCE." Playset accommodates most Action Figures, sold separately. Available Spring 1981.

### 4. YODA™ BOARD GAME

YODA helps you to master "THE FORCE" and become a JEDI KNIGHT. Action packed game based on YODA's planet, DAGOBAH, requires you to battle the "Dark Side", encounter high-risk situations in "Short Routes" and successfully complete the JEDI Trials in order to become a JEDI KNIGHT. Never fear—YODA will guide you. Ages 8 & Up. Available Spring 1981.

### 5. "THE FORCE" LIGHTSABER™

Traditional weapon of the JEDI KNIGHTS and used by LUKE SKYWALKER against DARTH VADER. "THE FORCE" LIGHTSABER has a long, sturdy plastic shaft and highly detailed base. Create different sounds by moving "THE FORCE" LIGHTSABER at various speeds. Slow movement produces a low howl, while swinging "THE FORCE" LIGHTSABER causes a high wind-swept sound. No batteries needed.

### 6. YODA, THE JEDI MASTER™

Ask YODA any question and receive guidance from "THE FORCE". Twenty YODA responses will help guide your daily activities. Available Spring 1981.

## BESPIN-CLOUD CITY™

### 1. MILLENNIUM FALCON™

Detailed replica of the speedy space vehicle piloted by HAN SOLO and CHEWBACCA. Features "Battle Alert" sound, retractable landing skids and manually operated gun turret. Cockpit opens to hold two Action Figures. Removable panel for interior play and secret hiding compartments. Action Figures and batteries not included. Assembly required.

### 2. TWIN-POD CLOUD CAR™

Their mission: To protect the mining colony on BESPIN. And they are good at their job. Two BESPIN Security Guard Action Figures and most other STAR WARS Action Figures will fit in the twin cockpits. Both pods have clear canopies that open and close easily. For fast lift-offs and landings the TWIN-POD's landing gear can be moved up and down. STAR WARS Action Figures each sold separately.

### 3. SLAVE I™

An exciting replica of BOBA FETT's Spaceship. Carry a simulated frozen HAN SOLO up the ramp into the cargo hold, place BOBA FETT in his cockpit, adjust his seat from landing to flight position and SLAVE I is ready for lift-off. The wings move freely unless you lock them with the stop button for flight control. The movable, clicking laser cannons protect SLAVE I from any

pursuit ships. Remove the side panel and the sleek craft holds 3 additional Action Figure passengers. Simulated frozen HAN SOLO included. Action Figures sold separately. Available Spring 1981.

### 4. THE STAR DESTROYER™

A dramatic play environment where DARTH COMMUNICATES with the Dark Side of "THE FORCE." Features a meditation chamber with lights, simulated hologram, secret escape hatch and movable gun. Action Figures and batteries not included. Assembly required.

### 5. IMPERIAL TIE FIGHTER™

Authentically detailed TIE FIGHTER has large "Solar Panels" on either side of the cockpit. Buttons release the "Solar Panels" to simulate a hit by an asteroid or battle damage. Hatch opens and remote operated seat allows Action Figures to be seated in cockpit. Push the button on the rear deck and the laser cannon lights up and emits a "whining" laser sound. Two "AA" batteries and Action Figures not included.
